

## SELECT VEGETATION

Relative Installation Cost	High
Life Cycle Cost	Moderate/High
Maintenance/Repair Cost	Moderate
Effective Longevity	Moderate
Installation	Moderate
Repair	Moderate
Maintenance	Moderate
Retrofit	Moderate

**Description:** Low growing species that compete with undesired vegetation

### Applications:

- Guardrail
- Gore/Median
- Slope/Embankment
- Median Cable Barrier

### Advantages:

- High aesthetic value
- Uses standard installation/maintenance equipment
- Allows for storm water infiltration
- Provides erosion control
- Out competes weeds

### Limitations:

- Requires site preparation
- Requires plant establishment period subject to increased maintenance
- Limited use in arid/semi-arid locations or areas subject to wildfires

### Common Problems:

- Worker exposure is high for installation and maintenance
