

STANDARD CONCRETE PAVEMENT

Relative Installation Cost	High
Life cycle Cost	Low
Maintenance/Repair Cost	High
Effective Longevity	High
Installation	Moderate
Repair	Difficult
Maintenance	Moderate
Retrofit	Difficult

Description: Standard concrete mixture

Applications:

- Guardrail
- Sign Posts
- Gore/Median
- Mow Edge
- Slope/Embankment
- Edge of Pavement
- Median Cable Barrier

Advantages:

- High aesthetic appeal
- Good for use in urban/high visibility locations
- Can be used in most climate conditions
- Low life cycle cost
- Most contractors have equipment to install
- Color and pattern may be added

Limitations

- High installation and repair costs
- Can be difficult in retrofit applications
- Requires leave-out area at ground penetrations

Common Problems:
