

MINOR CONCRETE

Relative Installation Cost	Moderate/High
Life cycle Cost	Low
Maintenance/Repair Cost	High
Effective Longevity	High
Installation	Easy
Repair	Difficult
Maintenance	Moderate
Retrofit	Difficult

Description: Standard concrete that includes crumb rubber or polypropylene fibers

Applications:

- Guardrails
- Sign posts
- Median barriers
- Gore areas
- Median
- Slope
- Mow edge

Advantages:

- Cost is similar to standard concrete paving
- Easily installed with standard tools and equipment
- Can be used with colors and patterns

Limitations:

- “Leave-out sections” are required due to the rigidity of the material
- Not recommended for existing guardrails due to grading and excavation required for installation.

Common Problems:
